

How to Reset your GOPValues account?

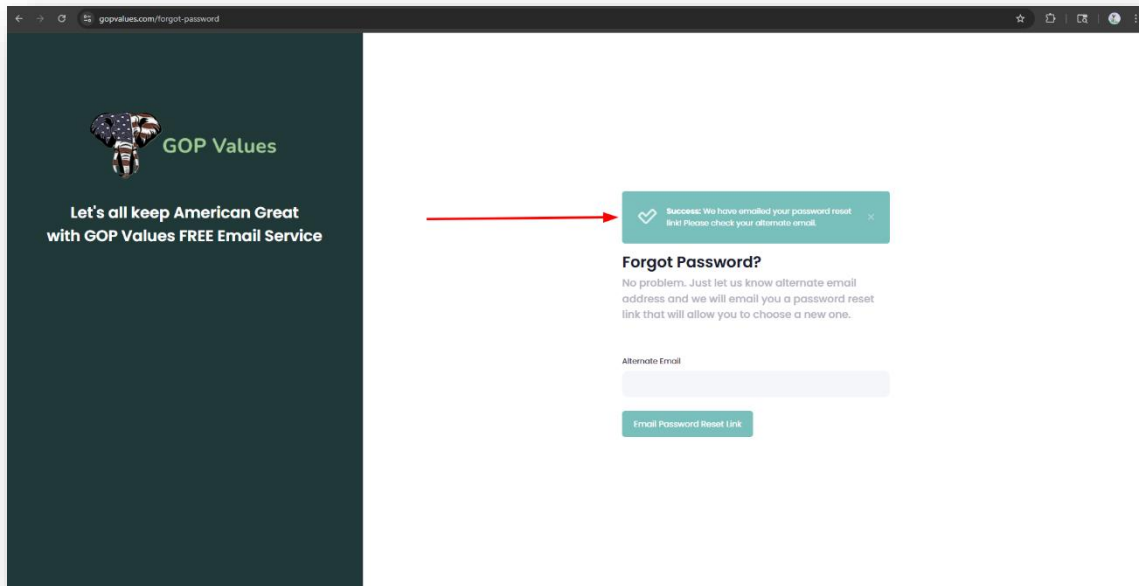

1. Visit <https://gopvalues.com/login> and then click the **Forgot password?** Button.

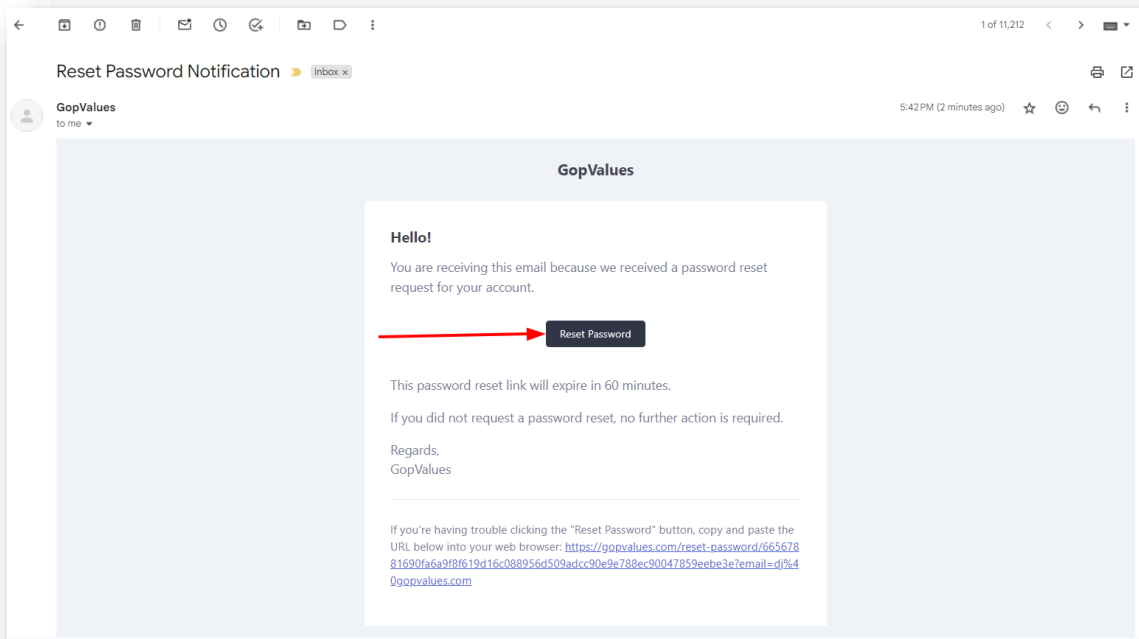

2. Input your **Alternate email address** in the form below and click the **Email Password Reset Link** button.

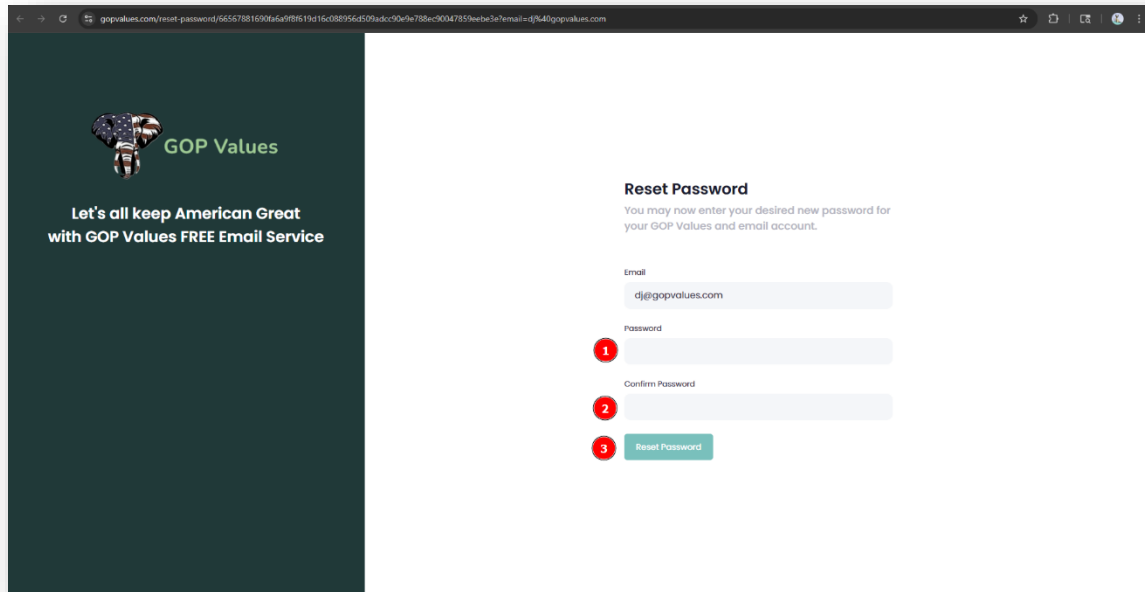

- There will be a success message that will appear indicating that the password reset link has been sent to you alternate email address. Please check your email.

- You should receive an email like this below. Please click the **Reset Password** button.

- Once you clicked the link, it will redirect to this page for you to input your **New Password** and **Confirm Password**. Once done, click on **Reset Password Button** to finally reset your password.

The screenshot shows a web browser window with the URL `gopvalues.com/reset-password/66567881690bae9f9b513d15c089564d59adc90e7e788e90047859eebe3e?email=dj%40gopvalues.com`. The page has a dark green sidebar on the left with the GOP Values logo and the text "Let's all keep American Great with GOP Values FREE Email Service". The main content area is white and titled "Reset Password". It contains a form with the following fields and elements:

- Email:** A text input field containing `dj@gopvalues.com`.
- Password:** A text input field with a red circle containing the number "1" to its left.
- Confirm Password:** A text input field with a red circle containing the number "2" to its left.
- Reset Password:** A green button with a red circle containing the number "3" to its left.

Below the form, there is a small text line: "You may now enter your desired new password for your GOP Values and email account."

- Congratulations! You have successfully reset your password in your GOPValues account.
